Mohammad Abdullah

Email: mabdullah.2118@gmail.com | **Phone:** (917) 517-7739 | **GitHub | LinkedIn**

Technical Skills

Languages: Python, Java, C/C++, JavaScript, TypeScript, HTML, CSS, R
Frameworks and Tools: React, Node.js, Express, Git, GitHub
APIs & Cloud: REST APIs, OAuth 2.0, Google Calendar API, AWS (EC2, S3, Lambda)
Concepts: Data Structures, Agile Workflow, Full-Stack Development, Geospatial Analysis with ESRI
Design and Content: Squarespace, Canva, Capcut
Productivity Tools: Microsoft Office, Google Workspace, (Windows & Mac environments)

Education

Adelphi University — B.S. Computer Science (Software Engineering) | Minor: Cybersecurity | May 2028
Relevant Coursework: Web Development, Introduction to Digital Art (Photoshop, Illustrator)

Experience

> **Intern, Computer Science (SaaS, SEO, AI) at** *Sports Media Inc | June 2025 - Present*
>
> Engineered a robust appointment booking backend using Node.js and Express, integrating the Google Calendar API to automate scheduling and reduce manual data entry.
> Implemented secure OAuth 2.0 authentication with automated token refreshing, ensuring persistent and safe user sessions.
> Designed and documented scalable RESTful API endpoints for CRUD operations, optimizing data retrieval speeds for calendar events.
> Developed type-safe frontend components in React (TypeScript) to visualize

> calendar events, improving the user interface and reducing runtime errors. Collaborated in an Agile environment using Git/GitHub for version control, managing branch strategies and code reviews to ensure production stability.

> **Tech Team Member at** *MIST Muslim Interscholastic Tournament NY | Sep 2025 – Present*
>
> Orchestrated tournament operations by managing both software and hardware systems, including registration platforms, the organization's Squarespace website, announcements on app, and scoring tools while troubleshooting technical and A/V issues.

Projects

Spatial Justice in Transportation Analysis | *Geospatial Data Science Project 2024*

https://github.com/Mohammad-comp/transportation-analysis

- Analyzed transportation equity in Nassau and Kings counties in NY by processing U.S. Census API data with GeoPandas to identify accessibility gaps.
- Visualized spatial inequalities impacting marginalized communities by developing interactive choropleth maps and statistical models using Plotly and Folium.
- **Technologies:** Python, GeoPandas, Plotly, Folium, Census API, Jupyter Notebooks
